WANDUSOA WELCOMES SECOND BATCH

➤➤➤ Ten internally displaced youths (70% girls) began their 6-month training and 3-months mentorship program in regenerative agriculture/business at Wandusoa Organic Cameroon Regenerative Agriculture School in January 2024. It is amazing to see these youths expressing their aspirations to become conscious food producers and stewards of our planet

TRANSPLANTATION OF INDIGENOUS FOOD AND FRUIT TREES

A Consciousness Practice to Transform Food Systems is our focus. Wandusoa's commitment to preserve and restore our topsoil is manifesting in the lives of the participants of our second batch just mid-way through their six-month training and three-month mentorship regenerative agriculture/business course. To match words with actions in re-greening our planet and ensuring food security, students, volunteers, and staff of wandusoa just planted 10000 fruit trees, 5000 seedlings of cocoyams, and plantains in the Wandusoa Food Forest in Saxenhof-Wotutu Buea in the South-West Region of Cameroon during this first quarter period of the year. We say thanks to all our partners and supporters. Without you, we would not have achieved all these.

WANDUSOA WINS A GLOBAL AWARD.

We are thrilled to announce that Wandusoa Organic Cameroon Development Association has been selected—by the Roddenberry, Sall Family, Schooner, Shockwave, and Tarsadia Foundations—as an Awardee of the +1 Global Fund for Food Security. Please, check out this post announcing the +1 Global Fund for Food Security Cycle's newest cohort on LinkedIn and share it with your networks. [Here:](#)

YOUR DONATION MAKES A DIFFERENCE!

**With your donation, you support the training of marginalized youths to become stewards of our planet. You can donate [here](#):
